

Soledad Ruiz Peñuela

Soledad Ruiz Peñuela graduated with a degree in Biology (2018, Autonomous University of Madrid). She continued at the UGR. In 2019 she finished her Master's degree in Conservation, Management and Restoration of Biodiversity obtaining the specialisation in Management and Restoration.

In 2020 she became part of the project BioCloud, developed by the Group of Atmospheric Physics (GFAT) of the Applied Physics Department. Her activity involves the study of anemophilous pollen, subpollinic particles, and their role as CCN (Cloud Condensation Nuclei).
